4. **CCC streetlights replacement project.** Information on this had been previously circulated. The Clerk provided the invoices for the last couple of years for comparison purposes. The project was discussed at length, with the cost to the Council and hence the community being an important factor, as well as the lifespan of the new lights. The Clerk was requested to clarify a few points such as the predicted impact in maintenance charges. In addition examination of the listing of community streetlights for the Council revealed some that were on private land. It was agreed that these would be considered at a later date.
